

**BID BULLETIN #03-GOODS-2022**

August 30, 2022

TO: ALL PROSPECTIVE BIDDERS

SUBJECT: AMENDMENTS IN THE BIDDING DOCUMENTS

PROJECT: NEGOTIATED PROCUREMENT UNDER TWO-FAILED BIDDINGS OF THE PROPOSED PROCUREMENT FOR THE SUPPLY AND DELIVERY OF CLOUD HOSTING FOR USTEP AND PRISMS

This Bid Bulletin #03-GOODS-2022 is issued to modify or amend the requirement in the Bidding Documents. This shall form an integral part of the Bidding Process.

1. Do you have plans to do an assessment review on your AWS infrastructure, to make sure if it is well architected or not? How about optimizations both for AWS infra and Applications as well (the purpose of it is to improve the performance and to maximize the budget, since the current budget given is too low for the given specifications). **Answer:** Thank you for this. We will look into it.
2. Do your current AWS infra is running on hybrid set up? Or Load balance both for APP and DB? **Answer:** Both PRISMS and USTEP are NOT in hybrid setup. In USTEP, only the APP has load balancing while the DB has NO load balancing. No load balancing in PRISMS for both APP and DB.
3. How about adding a Web Application Firewall, Content Delivery Network (CDN), and Encryption? **Answer:** Thank you for this. We will look into it.
4. May we request the CPU, Memory, and Network Utilization of the existing cloud servers? **Answer:** Thank you for this. We will look into it.
5. For confirmation if PhilGEPS Red & PhilGEPS Platinum is applicable for Joint Venture Agreement. **Answer:** This is already covered by an earlier Bid Bulletin.

Please be guided accordingly.

Thank you.
