

Section VII. Technical Specifications

Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words "*or at least equivalent.*" References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

Technical Specifications

Item No.	Specification	Statement of Compliance
		<p><i>[Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder's statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]</i></p>
LOT 1: ICT EQUIPMENT (P1,500,000.00)		
1	<p>BRANDED ALL-IN-ONE COMPUTER</p> <p>23.8inch FHD, 1920x1080 resolution, Intel Core i7-13th Gen Processor, 16GB soDIMM DDR4, 512 GB M.2 2280 PCI-e Gen4 SSD + 1TB HDD 2.5-inch 5400 RPM/ NVIDIA GeForce dedicated with 2 GB of GDDR6, 802.11ax/ac/a/b/g/n, LAN 1G, Wi-Fi 6E and Bluetooth 5, Windows 11 Home SL; with USB Mouse, Keyboard and Integrated Built-in Webcam, Microphone and Speaker, includes AVR, includes delivery to USTP Alubijid</p>	
LOT 2: ROUTING AND SWITCHING EQUIPMENT (P650,000.00)		
2	<p>ROUTING AND SWITCHING STANDARD LAB KIT</p> <p>A. Data Cabinet, W*D*H: 800*2000*800, High density vented mesh front door, high density vented</p>	

Technical Specifications - Re-bidding for the Proposed Procurement of the Supply, Delivery and Installation of ICT Equipment for USTP-Alubijid Campus (1st Quarter CY 2024)

mesh split rear door, 42U, Flat Packed, vented top, black9004, 2 units, 2U Cantilever Shelf, 2 Units rackmount 1 UPDU, 1 unit 4fan, 3 units Metal Cable Manager, 1 2U rackmount Drawer, 1 Unit Room Alert, 3W with temperature Sensor; CAT6 24 port Patch Panel (Unshielded, Loaded); CAT6 U/UTP Patch Cord (Unshielded, PVC, RED, 0.5m); CAT 6 UTP unshielded patch cord, PVC Blue 3m; CAT 4 pair U/UTP Cable (305m, unshielded, PVC, BLUE; CAT6 Keystone Jack (Unshielded, WHITE); 2 port faceplate, Shuttered (with label management 86x86mm); Back Box (86x86x42mm); Network Tools: 1pc. T3 Snapplug Crimping Tool, T3 CAT6 Snapplug connectors (200pcs) 1pc. T3 Punch Down tool 1pc T3 LAN Seeker Cable tested, 1pc Cable Stripper

Main Router, Switch, and Access Point

B. 3 units 1U rackmount, 10xGigabit Ethernet, SFP, USB 3.0, LCD, PoE out on port 10, 2x14GGz CPU, 1GB RAM, RouterOS L5 with SFP Module and Duplex Multimode Fiber Scale; 24 Gigabit port switch 2 x SFP+ cages in 1U rackmount case, Dual boot (RouterOS or SwitchOS); 802.11ax (Wifi 6) Dual-Radio PoE Access Point; Memory RT II Online 1KVA/900W 0.9PF with Internal battery, rack-tower convertible with bundled Rack Mount Kit (1:1)

C. Delivery, Installation and User Trainings (Set-up Installation and Maintenance) Networking Training for 20pax, 24 Training Hours at USTP Alubijid

***** Nothing Follows*****

Additional Requirements:

The technical specification that shall be submitted by the Bidder shall include, among others:

- a. *product specifications as supported by brochures or catalogues for Lot 1 & 2;*
- b. *bidder's certification for one (1) year warranty for Lot 1 & 2;*
- c. *bidder's certification of the availability of Service Center within Visayas and Mindanao for Lot 1 & 2; and*
- d. *certification from manufacturer/distributor that bidder is authorized to resell for Lot 1 & 2.*
