

Section VII. Technical Specifications

Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words "*or at least equivalent.*" References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

Technical Specifications

Item No.	Specification	Statement of Compliance
		<p><i>[Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder's statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]</i></p>
1	<p>ONLINE MEDICAL SYSTEM DIAGNOSIS with 50 accounts</p> <p>An essential resource for medical system diagnosis, treatment, and management information on the most frequently observed diseases and conditions.</p> <p>Feature includes: Continuously updated resources; Evidence-based information; Actual images and videos; Patient communication handouts and Real-time application assistance.</p>	

2	<p>COMPREHENSIVE ONLINE MEDICAL RESOURCE with 50 Accounts</p> <p>A comprehensive online medical resource that provides a complete spectrum of knowledge from the best minds in medicine, with essential information accessible anywhere.</p>	
3	<p>VIDEO ATLAS OF HUMAN ANATOMY with 50 Accounts</p> <p>Video Atlas of Human Anatomy contains more than 300 video clips of real human anatomic specimens in their natural colors. The videos show moving structures-muscles, tendons, and joints making the same movements that they make in life. The clips build complex structures step-by-step-from bone to surface anatomy -to provide a foundation for understanding anatomical structure and function. Clear narration and labeled structures reinforce learning and review.</p>	
4	<p>VISUAL GUIDE PHYSICAL EXAMINATION with 50 accounts</p> <p>Contains 18 volumes of head-to-toe and systems videos for learning physical assessment, with a range of patient profiles. Includes 5 videos in which a patient presents with a common complaint to test students' clinical reasoning skills. Combines the Physical Examination Videos with the OSCE Clinical Skills Videos for a complete assessment learning solution for your institution.</p>	
5	<p>ONLINE COURSE SOLUTION THAT PROVIDES MEDICAL EDUCATION with 50 Accounts</p> <p>A learning management and online course solution that provides education material in the fields of medical sciences, clinical sciences, pre-med and nursing. The solution also offers employee training videos that cover organization principles and goals.</p>	

6	<p>ONLINE RESEARCH TOOL FOR MEDICAL STAFF with 50 Accounts</p> <p>A research tool designed for physicians and medical staff that combines sophisticated search technology and full-text content from Lippincott Williams & Wilkins - available via the Ovid Discovery Lite interface. Slimmed-down Ovid Clinical EDGE content collection, which includes: - Ovid - the premier, comprehensive biomedical database offering access to over 15 million journal articles in biomedicine and health care - A to Z Drug Facts - for dosages, side effects, indications, and information on drug therapies -11 Current Opinion journals fromLWW 11 Current Opinion journals, which present reviews of the latest research in Cardiology, Endocrinology, Gastroenterology, Pediatrics, and other disciplines</p>	
<p>***** Nothing Follows*****</p>		

Additional Requirements:

The technical specifications that shall be submitted by the Bidder, shall include among others:

- a. *Product specifications as supported by brochures or catalogues; and*
- b. *Bidder's certification that it will provide technical support team during the duration.*
